

Following are the forms most frequently used in conjunction with the Animal Health Diagnostic Center's testing services:

1. **General Submission form:** This is our all-purpose submission form, set up to handle most test requests. Copies of this form can be downloaded from the AHDC web site at diagcenter.vet.cornell.edu. On the site, click on "Testing Services" in the box on the left, then click on "Sample Submission Requirements." There you will find a hyperlink for printing the General Submission form. See page 2 in this manual for more information on this form. Alternately, you can order forms using our "Supply Request Form" (see number 4. below).
2. **Histopathology Submission form:** Because of the special need for detailed descriptions of lesions, we encourage clients to use this form with fixed tissues for histopathology testing. These samples are tested by the Surgical Pathology Service in the Department of Biomedical Sciences, Section of Anatomical Pathology. Our shipping department can provide you with these forms at 607-253-3935, or for questions about this testing, call 607-253-3312.
3. **Necropsy Submission form:** This post-mortem document is also provided by the Section of Anatomical Pathology, for local necropsy cases. A signature is required of the submitting veterinarian to attest to the accuracy and completeness of the form. Call 607-253-3319 or 3301 for more information.
4. **Supply Request form:** The AHDC sends supplies to veterinarians for a minimal charge to assist in the submission process. Included on the form are various specialized mailers and related mailing supplies, blood collection tubes, media, kits for abortions, diarrhea, and von Willebrand testing, and other miscellaneous items. These charges are automatically billed to the veterinarian's account at the end of the month. This form can be ordered by calling AHDC Shipping at 607-253-3935, or by e-mail to AHDLshipping@cornell.edu.
5. **Regulatory Testing Forms**
 - a. **Equine Infectious Anemia (EIA or Coggins) form:** This is an official form for New York regulatory testing that must be completed and signed by accredited veterinarians for testing of horses. Any samples for regulatory testing that originate from states other than New York must be accompanied by official state forms provided by those states. Contact the NYS Department of Ag & Markets at the address or phone below for more information.
 - b. **Official Brucellosis form:** This form is also a required official form for regulatory testing in the State of New York. Please note: the AHDC does not provide these forms to veterinarians. They can be ordered from the following address or phone number:

Attn: Mary Beth Dobrucki (Regulatory form request)
Division of Animal Industry/NYS Department of Ag & Markets
10B Airline Drive
Albany, NY 12235
Phone: 518-457-5558

Samples received for testing at the Animal Health Diagnostic Center become the property of the AHDC. The submitting veterinarian is responsible for the requested tests and their associated fees for each submission.
